

### Facebook trials "Facebook Questions"

At the end of July, Facebook introduced a new feature called Facebook Questions. Using this new feature, Facebook users can pose a question to the entire Facebook community and receive a broader set of answers as well as learn valuable information on a wide range of topics.

This feature will allow users to upload a picture and post a poll. You will also have the ability to pose the question to a specific group of users. For example if you have a question on what type of camera you should buy, you can tag it with "Photography" allowing the most relevant people to answer your questions.

Right now it is only available to a limited number of people, but Facebook is aiming to bring this to the general Facebook community in the near future.
